

5 Ingredients for perfect Payroll

01

The right technology

Configurable to your unique and ever-changing calculation and reporting requirements.

Agile so that you can easily make changes and view up-to-date payroll information anytime, anywhere.

Secure so that employee data is centralized and never compromised by unnecessary file transfers.

Aligned with other HR and finance processes so that all the things affecting payroll are streamlined.

Automated to avoid human error and ensure consistency.

Robust enough to handle all your audit and reporting needs.

02

Accurate data

Payroll is only as perfect as the data you input. That's why you (or your partner) need to **audit for common mistakes** like:

Employee classification

Earnings

Deductions including payroll tax

03

Automated processes

In addition to an **automated system**, you (or your payroll partner) need to

Automate as many manual processes as possible to:

Avoid errors

Delays

04

Year-end processing plan

The **wrong system and processes can leave you struggling** during year end. Be sure that you (or your partner) are:

Reconciling quarterly

Auditing before errors or delays prove costly

05

Flexible pay options (with perks) for your employees

Accurate, timely payroll is always the first step, but today's employees are looking for more.

Be sure that you are providing **flexible payroll options**.

Earned wage access

Payroll cards
